

ADA INFORMATION

Any student who, because of a disability, may require special arrangements in order to meet the course or lab requirements should notify Culinary Institute Le Notre, VIA the Student Success Center, prior to enrollment, or as soon as possible to make necessary arrangements. Per our disability accommodation request application, Students must present appropriate documents and verification, must be interviewed by the SSCC to ensure reasonable accommodations are available within our entity, and then signed for approval. Please note that instructors are not allowed to provide classroom/lab accommodation to a student until appropriate verification from Student Success Center has been provided. It is the Students responsibility to disclose disability accommodation request, therefore if requested anytime after enrollment, grades or course completion received prior to request cannot be retroactive to change grades previously given. For additional information, please contact The Student Success Center.
